

## PRINCIPLES TO DELIVER GROWTH

	<b>PRINCIPLE</b>	<b>OVERVIEW</b>	<b>APPLICATION</b>
1	<b>Establish a strategy and business model which promote long-term value for Shareholders</b>	<p>The board acknowledges that they need to express a shared view of the company's purpose, business model and strategy.</p> <p>This view must go beyond the simple description of products and corporate structures by setting out how the company intends to deliver shareholder value in the medium to long-term and demonstrating that the delivery of long-term growth is underpinned by a clear set of values aimed at protecting the company from unnecessary risk and securing its long-term future.</p>	<p>The Board is collectively responsible for the long-term success of the Company and provides effective leadership by setting the strategic aim of the Company and overseeing the efficient implementation of these aims in order to achieve a successful and sustainable business. In practice the Executive Directors prepare and present the strategic plan to the Board, which the Board challenges in order to determine the strategic priorities.</p> <p>The Company's strategy and business model is set out in its admission document dated 20 June 2018 on pages 22 to 30 which explains how the Company generates and preserves value over the longer term and the strategy for delivering the objectives of the Company.</p>
	<b>PRINCIPLE</b>	<b>OVERVIEW</b>	<b>APPLICATION</b>
2.	<b>Seek to understand and meet shareholder needs and expectations</b>	<p>The Directors have developed a good understanding of the needs and expectations of all elements of the company's shareholder base. The board acknowledged it must manage shareholders' expectations and should seek to understand the motivations behind shareholder voting decisions.</p>	<p>The Company engages with its shareholders in the following ways</p> <ul style="list-style-type: none"> <li>• Through regular RNS communications to provide updates on financial and commercial matters</li> <li>• Through producing comprehensive and informative reports at the half year and the year end</li> <li>• Through statutory meetings of shareholders which provide the opportunity for shareholder to ask questions or voice concerns</li> <li>• Through institutional and private shareholder and analyst meetings and events, held by our brokers, at which the Company presents.</li> </ul> <p>Engagement success is measured by written and verbal feedback from institutional and retail shareholders. The company manages shareholder interaction using its own resources and in conjunction with its broker. The key points of contact for shareholder liaison are the Company's Chairman; Richard Cunningham, CEO; Simon Crowther and CFO; Alyson Levett.</p>

	<b>PRINCIPLE</b>	<b>OVERVIEW</b>	<b>APPLICATION</b>
3.	<b>Take into account wider stakeholder and social responsibilities and their implications for long-term success</b>	<p>The board understands that long-term success relies upon good relations with a range of different stakeholder groups both internal (workforce) and external (suppliers, customers, regulators and others).</p> <p>The board has identified the company's stakeholders and understand their needs, interests and expectations and also acknowledges within its strategy and business model matters that relate to the company's impact on society, the communities within which it operates or the environment.</p> <p>The board takes stakeholder feedback seriously and has implemented systems to garner the views from both its internal and external stakeholders.</p>	<p>The Company's business model identifies the key resources and relationships on which the business relies through its internal team structure and analysis of which takes place as part of the Company's regular board meetings.</p> <p>The Company obtains feedback from internal stakeholders through regular management and internal team meetings, employee appraisals and post project delivery evaluation sessions for its contracted suppliers. Suggestions are passed to the senior management teams via line managers.</p> <p>The Company's key external stakeholders are shareholders (dealt with above) and customers. As customer renewals are essential for the success of the Group, customer success teams have regular interactions with the customer during the course of implementation of the Group's solution and during the life of a customer contract to ensure that feedback can be provided and responded to.</p>
4.	<b>Embed effective risk management, considering both opportunities and threats, throughout the organisation</b>	<p>The board ensures that the company's risk management framework identifies and addresses all relevant risks in order to execute and deliver strategy;</p> <p>The company considers extended business, including the company's supply chain, from key suppliers to end-customer. When setting strategy, this includes determining the extent of the company's risk tolerance and risk appetite.</p>	<p>The key risks relating to the Company and its business are set out in the Company's admission document dated 20 June 2018 on pages 37 to 47. The Company's board and senior management meet to assess ongoing risk and the management thereof on a regular basis. A analysis of the key risks, and the management thereof, were provided in both the Company's financial results for the years ended 30 September 2018 and 2019.</p>
